**ANNUAL PERFORMANCE PLAN**  
For the fiscal year 2017/18

## **FOREWORD**

---

I have the pleasure to present the Annual Performance Plan (APP) for the Culture, Arts, Tourism, Hospitality and Sport Sector Education and Training Authority (CATHSSETA) for the period 1 April 2017 to 31 March 2018, which is presented in terms of the Skills Development Act (SDA) which established and governs the SETA, and in terms of the Public Finance Management Act (PFMA) (Act 56 of 1999, as amended).

This document is a product of the management and staff of CATHSSETA. Given that the organisation has just come out of the administration and has just received a clean audit report, we are confident that in spite of the challenges ahead, we are up to the task. The document also considers both successes and challenges experienced in service delivery from its strategic intent and reflects extensively on its alignment to the national and provincial priorities as reflected in the National Skills Development Strategy (NSDS) III, the National Development Plan (NDP) and the Medium Term Strategic Framework (MTSF), with particular focus on the Outcome of "a skilled and capable workforce to support an inclusive growth path" (Outcome 5).

The Strategic Plan from which this APP is drawn, has also been revised and updated to align with the National Treasury's Framework for Strategic Plans and Annual Performance Plans (2011). This APP aligns to the Strategic Plan and seeks to address the current challenges facing CATHSSETA by using innovative approaches to performance delivery in line with CATHSSETA's revised vision, mission and values.

In the current period, the focus is towards building organisational capacity and inculcating a results-oriented and performance-driven culture. The educational and training landscape is constantly changing and the continued survival for CATHSSETA lies in the organisation embracing change and continuity to address increased demand for its services against ever limited resources. The focus of performance in the medium term will require introducing mechanisms to address:

- Qualification review
- Training provision
- Analysis of skills needs
- Work experience and experiential learning
- TVET capacity building
- Increased partnerships
- Transformation in the sector
- Addressing scarce and critical skills

One of the interventions that we have already implemented is the establishment of regional offices to address the historical challenge of stakeholder access to our services. The regional offices will be instrumental in addressing the above deliverables. They will be key to CATHSSETA meeting the increased demand in our services.

In conclusion, I would like to take this opportunity to express my commitment to support the organisation as it continues to concentrate on excellent service delivery to our sector and its people through the performance focus and intent outlined in this Annual Performance Plan for the period to 2017/18.

I also thank our stakeholders for their valuable contribution to the information and data contained in and informing this Annual Performance Plan. CATHSSETA will seek to leverage these engagements to further our positive contribution to society into the future.

## PART A: STRATEGIC REVIEW

### 1. Updated situational analysis

#### 1.1 Performance Delivery Environment

CATHSSETA oversees the skills development needs of six sub-sectors. As unique as these sub-sectors are, each plays a significant role in the national economy, the broader quest for social cohesion and formation of a South African national identity. The table below provides details on the sub-sectors falling under the scope of CATHSSETA.

Table 1 : CATHSSETA sub-sector summary

| SUB-SECTOR                    | BACKGROUND AND DESCRIPTION  |
|-------------------------------|---|
| Arts, Culture and Heritage    | The South African Arts, Culture and Heritage sub-sector is one of the largest in the country. However, the measurement of economic contribution as well as the labour market analysis in terms of skills requirements remains a challenge due to a lack of historically accurate and valid data. The sub-sector accounts for 1% of employees within the sector as in the past two years. The number of employees reported through the Mandatory Grant application process for 2016 has decreased by 8% from 2015. |
| Conservation                  | The Conservation sub-sector reported 14 477 employees in 2015. This has decreased to 8 614 employees in 2016, indicating a 40% decrease. However, the sub-sector is embedded within the broader environmental sector and a lack of clear delineation poses a challenge in determining the composition and profile of this sub-sector.   |
| Gaming and Lotteries          | The Gaming and Lotteries chamber is the smallest sub-sector within CATHSSETA's scope. The sub-sector has shown the second greatest increase in the number of employees, at a growth of 12%. The sub-sector reported 27 879 employees in the current period, making it the second largest employer of the sector.  |
| Hospitality                   | The Hospitality sub-sector is the largest sub-sector within the CATHSSETA scope and is a several billion dollar industry that is dependent on the availability of leisure time and disposable income. With a total of 134 952 employees reported, the sub-sector represents 65% of employees in the sector. However, a large proportion of entities in the sub-sector are levy exempt and thus do not contribute to the CATHSSETA levy income base.   |
| Sport, Recreation and Fitness | The Sport, Recreation and Fitness sub-sector, seen as a catalyst for job creation in other sectors, contributes directly and indirectly to economic growth within the country. The sub-sector continues to increase with 14 189 employees reported in 2015, and 15 990 in the current year. This indicates a growth of 13%, the highest increase within the sector.   |
| Tourism and Travel            | The Tourism sub-sector is one of the key contributors to the South African economy. The sub-sector's contribution to the gross domestic product (GDP) increased from R113.4 billion in 2014 to R118.6 billion in 2015. This is expected to increase by 3.9% in 2016. However, the sub-sector continues to experience a decrease in the number of employees from 18 171 in 2015 to 17 696 in the current year.   |

The table below provides an overview of the number and size of enterprises registered with CATHSSETA. The nature of the sub-sectors is characterised by Small, Medium and Micro-sized Enterprises (SMMEs), with over 90% of the registered entities falling under this category.

The prevalence of SMMEs means that many of these employers, those with an annual payroll of less than R500 000, are exempt from paying the skills levies and submitting Mandatory Grant applications. This poses a challenge for CATHSSETA to, firstly, collect robust data to give a comprehensive view of the sector and its demand for skills development. To minimise lack of data, CATHSSETA consults with key stakeholders in the different sectors, to not only enrich its data, but to determine the skills development needs in industry and address issues that hinder implementation of skills development interventions. Secondly, it impacts the amount of levies received from employers and this results in a significant gap between the available financial resources and those required to address skills shortages within the sector.

## 1.2 Organisational Environment

### 1.2.1 Management Capacity

The processes to improve the capacity of existing management are critical for the long term performance and value offerings by CATHSSETA. These processes will entail establishing credible Strategic and Annual Performance Plans, management systems and standardised procedures to ensure output certainty and client satisfaction. The first year of this plan will benefit from the systems to be introduced from the administration period. Going forward, the new leadership of CATHSSETA will be poised to build continuity by creating a fresh start for the organisation, without the burden of the previous years that led to the organisation being put under administration.

### 1.2.2 Governance

In this administration period, interim governance structures were put in place to ensure oversight functions and accountability. This Annual Performance Plan will benefit from an oversight and governance function performed by a new Accounting Authority with a new licence for the SETA.

Process and policies for effective governance will be put in place ahead of this new licence. A Framework for Risk Management has been put in place with various accompanying policies. Equally important will be operational security measures to curb physical and operational vulnerability as well as integrity testing to limit exposure to fraud and corruption. All these measures will be in place to ensure that all employees feel unencumbered to pursue the long term vision and mission as envisaged in this plan.

## **2. Revisions to Legislative and other Mandates**

Whilst CATHSSETA remains under administration, the NSDS III has been extended from 01 April 2016 to 31 March 2018, as per Government Gazette 39263. CATHSSETA has been re-established in terms of Government Gazette 39260, in line with the extended NSDS III period. It is anticipated that the proposed SETA landscape, in the implementation of the White Paper on Post-School Education and Training, may result in significant changes to CATHSSETA's legislative and other mandates.

### **3.2 Relating expenditure trends to strategic outcome oriented goals**

- The percentage change in revenue income between 2016/17 to 2017/18 is 3%. The same overall revenue growth rate between 2017/18 and 2018/19 is maintained at 3%.
- CATHSSETA currently has three programmes, i.e. Administration, Planning and Learning Programmes. This enabled the programme allocation to be revised, as follows:

| <b>Programme No</b> | <b>Programme Name</b> | <b>Programme Budget</b>  | <b>Budget: 2017/18 R'000</b> |
|---------------------|-----------------------|--|------------------------------|
| 1                   | Administration        | Administration (current) expense   | 40,986                       |
| 2                   | Planning              | Transfers and subsidies (supported through Mandatory and Discretionary Grants) | 65,105                       |
| 3                   | Learning Programmes   |  | 213,817                      |
|                     | Total                 |  | 319,908                      |

- For the above programmes budget, an assumption that interest earned on cash reserves estimated to be between R7,3 million and R8,4 million will be used to fund learning programmes requirements, including any excess to be transferred from Mandatory Grant reserves, should any be realised.
- With regard to administration expenditure, CATHSSETA has challenges in incurring this expenditure within the set threshold, of which the Executive Authority has been appraised accordingly and necessary approvals granted in this regard in the past. Whilst section 14(3)(b) as read with sections 14(3A)(a) and 14(3B) of the Act states that a SETA may not use more than 10.5% of the total levies paid by the employer as allocated in the Act received in any year to pay for its administration costs in respect of that financial year, CATHSSETA has been unable to remain within the 10.5% administration cap in the recent years.
- The CATHSSETA has been exceeding the 10,5% threshold due to its structural setup and sector dynamics in which it operates. Cost containment and other reduction measures have been put in place to address this matter. CATHSSETA is embarking on a revenue growth initiatives in order to grow the revenue base, which in turn will result in expenditure being within the set thresholds in the future years.

## PART B: Programme and sub-programme plans

### 4. Programmes, strategic objectives, performance indicators and targets for 2017/18

#### 4.1 Programme 1: Administration

The purpose of this programme is to enable the CATHSSETA to deliver on the mandate by providing strategic management, sound financial and supply chain management capacity, corporate and administrative support. This programme is made up of the following sub-programmes; Governance, Finance and Corporate Services.

#### Sub-programme 1.1: Governance

#### **4.5 The CATHSSETA delivery model**

CATHSSETA uses the Discretionary Grant Funding Model as prescribed by the SETA Grant Regulations. In accordance with the Grant Regulations, CATHSSETA allocates at least 80% of its available Discretionary Grants within a financial year to PIVOTAL programmes. A maximum of 20% of Discretionary Grants is allocated to the funding of non-PIVOTAL programmes. CATHSSETA updates its funding framework (contained within the Discretionary Grant Policy) to meet its transformational and developmental imperatives. The Strategic Projects Policy supplements the Discretionary Grant Policy and addresses the deliverables which are not catered for in the Discretionary Grant funding windows.

PIVOTAL programmes such as learnerships, bursaries, skills programmes, work integrated learning and internships are used to address scarce skills as identified in the Sector Skills Plan (SSP). CATHSSETA allocates at least 80% of Discretionary Grants to PIVOTAL programmes according to the following apportionment:

- 60% of funding is made available to all stakeholders falling within CATHSSETA's sectors through the allocated Discretionary Grant window. Discretionary Grant window is opened three months before implementation of the skills development intervention during the financial year in order to address the objectives of the APP; and
- 20% of funding is allocated to strategic projects addressing rural areas, TVET capacity building and youth development programmes.

##### **4.5.1 Alignment between the targets in the APP and priority scarce and critical skills**

The table below outlines the alignment between the targets in the APP and the priority scarce and critical skills identified in the SSP by providing details of which occupations will be supported through the Discretionary Grant funding windows.

#### 4.5.2 Sector Partnerships

The NSDS III encourages SETAs to work closely with Public Education and Training Institutions in a bid to create one coherent post-school education system. In pursuing this imperative, CATHSSETA enters into Memoranda of Understanding (MOUs) with Public TVET colleges and Higher Education Institutions (HEIs) that focus on qualifications within the scope of CATHSSETA. These partnerships are used to develop a link between the institutions and the sector for the benefit of unemployed learners.

Currently, there are four types of partnerships through formal MoUs that have been established with the sector to foster relationships in order to allow a smooth flow of skills development processes. These partnerships include public training providers, private sector employers, public entities and government departments. The purpose of these partnerships and the number of institutions involved are listed in the table which follows.

**Table 4: CATHSSETA Partnerships**

| Partnership Category      | Type of Institutions   | Purpose of Partnerships   | Number of Institutions |
|---------------------------|--|---|------------------------|
| Public training providers | Technical Vocational Education and Training (TVET) Colleges  | Accreditation and Qualifications review                                   | 35                     |

# Materiality Framework

higher education  
& training

Department:  
Higher Education and Training  
REPUBLIC OF SOUTH AFRICA

## **ANNEXURE A: MATERIALITY FRAMEWORK**

---

### **Policy on Materiality and Significance Framework**

As required by the Treasury Regulations 28.3.1, the Accounting Authority has to maintain an agreed framework of acceptable levels of materiality and significance with the Executive Authority, the Minister of Higher Education and Training.

#### **Materiality**

In arriving at materiality, the following factors must be taken into account:

- Guidelines issued by the National Treasury
- The nature of CATHSSETA's business
- Statutory requirements affecting CATHSSETA
- The inherent and control risks associated with CATHSSETA
- Quantitative and qualitative issues

#### **Significance**

In order to comply with section 54(2) of the Public Finance Management Act, 1999 (Act No. 1 of 1999) (PFMA), the Accounting Authority will report on:

- The acquisition and disposal of a significant asset, and
- The beginning of a significant business activity.

#### **Review**

The Materiality and Significance Framework is reviewed annually for inclusion in the Strategic Plan, Annual Performance Plan and Budget for the ensuing financial year.

Any changes to the Framework must be agreed with the Minister of Higher Education and Training.

Once an approval by the Minister of Higher Education and Training has been granted, the Materiality and Significance Framework will be amended for the applicable financial year.

## **Procedure for Materiality and Significance framework**

### **Introduction**

These procedures serve to guide CATHSSETA in maintaining an agreed Framework of acceptable levels of materiality and significance with the Minister of Higher Education and Training, in accordance with the Materiality and Significance Policy.

### **Procedure for Annual Review**

The Chief Financial Officer (CFO) is responsible for conducting an annual review and making a recommendation to the Accounting Authority, regarding the Materiality and Significance Framework.

The CFO should take the following factors into account:

- Guidelines issued by the National Treasury
- The nature of CATHSSETA's business
- Statutory requirements affecting CATHSSETA
- The inherent and control risks associated with CATHSSETA
- Quantitative and qualitative issues

The CFO has to submit his/her recommendation via the normal channels, in the following order, taking the dates of the relevant meetings into account and taking into account that a decision to recommend a specific framework is required by August annually, with a view to submitting the revised framework to the Department of Higher Education and Training with the Budget and Strategic Plan of CATHSSETA:

- The Executive Committee (Recommendation to the Finance and HR Committees and the Audit and Risk Committee)
- Audit and Risk, Finance & HR Committees (Recommendation to the Accounting Authority)
- The Accounting Authority (Approve and recommends the decision to the Minister through the Department of Higher Education and Training)

### **Recording of the approved Framework**

The Materiality and Significance Framework is included in the Strategic Plan and budget for the ensuing financial year. The CFO should ensure that CATHSSETA's Annual Report reports on the Framework and any matters of Materiality or Significance. The CFO is the custodian of this Framework.

## **FRAMEWORK FOR THE FINANCIAL YEAR 2017/18**

(Levels set as per the guidance set out in the Practice Note on the PFMA and approved by the Minister of Education in 2006, remains unchanged).

## **Materiality**

The Accounting Authority has taken into account the following factors in determining CATHSSETA's proposed level of materiality:

- The nature of CATHSSETA's business
- Statutory requirements affecting CATHSSETA
- The inherent and control risks associated with CATHSSETA
- Quantitative and qualitative issues

Having taken the factors listed above into account, the Accounting Authority has assessed the level of materiality to be:

- DHET Allocation – 0.25% of Total Income/Budget allocated to CATHSSETA for the year
- Amount in respect of total assets of the SETA
- R10,000 and above for irregular, fruitless and wasteful expenditure involving any gross negligence or fraud

| Element           | Parameters | CATHSSETA:-AFS<br>FY2015/16<br>R'000 | ValueR'000    |
|-------------------|------------|--------------------------------------|---------------|
| Total Assets      | 1%-2%      | R261 785                             | R2 617–R5 235 |

*\*Based on 2017/18 budget estimate*

## **Significance**

The Accounting Authority has decided that any transaction covered by section 54(2) of the PFMA within the stipulated values in the materiality table above will be reported on, being:

- The acquisition or disposal of a significant assets (s54(2)(d) of the PFMA)
- The beginning of a significant business activity (s54(2)(e) of the PFMA)
- The significant change in the nature or extent of interest in co-funding elements on a significant partnership, trust, unincorporated joint venture or similar agreement (s54 (2)(f) of the PFMA)
- The significant and material non-compliance that may result in irregular, fruitless and wasteful expenditure for the CATHSSETA being incurred

## **1. Purpose**

1.1 CATHSSETA is required, on an annual basis, to monitor and evaluate learning interventions, performance and achievement of predetermined objectives.

1.2 This policy sets out CATHSSETA's monitoring and evaluation (M&E) framework for managing organisational performance.

## **2. Definitions**

In this policy, unless the context indicates otherwise:

**2.1 "Accounting Authority"**

- means the Administrator of CATHSSETA as published in the Government Gazette 38101 15 October 2014

**2.2 "APP"**

- means the Annual Performance Plan of CATHSSETA

**2.3 "CATHSSETA"**

- means the Culture, Arts, Tourism, Hospitality and Sport Sector Education Training Authority

**2.4 "Discretionary Grant"**

- means the monies allocated within the CATHSSETA to be spent on Discretionary Grant projects as contemplated by Regulation 6 of the Grant Regulations; the grant is used by the SETA to implement the Sector Skills Plan in collaboration with the sector

**2.5 "Evaluation"**

- Evaluation is the periodic assessment of performance against agreed upon objectives for the purpose of review. It is a systematic collection and objective analysis of evidence on policies, programmes, projects, functions to assess issues such as relevance, performance and value for money, impact and sustainability, and to recommend ways forward

**2.6 "Grant Regulations"**

- means the Sector Education and Training Authorities (SETAS) Grant Regulations published under Government Notice R990 in Government Gazette 35940 of 3 December 2012, as amended

**2.7 "Learnership Regulations"**

- means the Learnership Regulations, 2007 published under Government Notice 519 in Government Gazette 30010 of 29 June 2007, as amended

**2.8 "Learning Programme"**

- means a learnership, an apprenticeship, a skills programme and any other learning programme prescribed in terms of the Skills Development Act which includes a structured work experience component

- 2.9 **“Mandatory Grant”**

### **3. Scope of Application**

This policy applies to all departments of CATHSSETA, including regional offices and stakeholders involved in training within CATHSSETA's gazetted sub-sectors, namely, Hospitality, Tourism and Travel Services, Gaming and Lotteries, Conservation, Sport, Recreation & Fitness and Arts, Culture and Heritage.

### **4. Policy Statement and Legal Basis**

4.1 The legal basis of this policy is informed and underpinned by the following:

4.1.1 The Constitution (section 195) mandates that in the principles of public administration:

- Efficient, economic and effective use of resources must be promoted
- Public administration must be development-oriented
- Public administration must be accountable
- Transparency must be fostered by providing the public with timely, accessible and accurate information.

4.1.2 In addition, the Public Finance Management Act (PFMA, 1999) and the Public Service Act (1994 as amended by Act 30 of 2007) provide a legal basis for the efficient and effective management of public policies and programmes.

4.1.3 The Policy Framework for the Government-wide Monitoring and Evaluation System was approved by Cabinet in 2005 and provides the overall framework for M&E in South Africa. The Policy Framework draws from three data terrains for M&E purposes, each of which is the subject of a dedicated policy describing what is required for them to be fully functional. National Treasury has issued a Framework for Managing Programme Performance Information (FFMPI), and Statistics South Africa has issued the South African Statistical Quality Assurance Framework (SASQAF).

4.1.4 Sector Education and Training Authorities (SETAs) Grant Regulations Regarding Monies Received by a SETA and Related Matters (Regulation No. 35940 of 3rd December 2012, as amended and contained in Regulation Gazette No. 9867 Vol. 570).

4.1.5 The Skills Development Act , 1998 (No. 97 of 1998) section 10(1) as amended, which aims to provide an institutional framework to implement national sector and workplace strategies to develop and improve the skills levels of the South African workforce.

4.1.6 The Skills Development Levies Act (No. 9 of 1999), which stipulates the processes for the management and disbursement of funds received as levy income.

### **5. Relationship with CATHSSETA Policies**

**This Policy is related to the following stated policies of the CATHSSETA:**

5.1 Performance Information Policy

5.2 Research Policy

5.3 ETQA Monitoring and Audit Policy

5.4 Discretionary and Mandatory Grant Policies

5.5 Risk Policy

## 6. Principles

CATHSSETA strives to achieve value for money by ensuring that funds are spent on skills development to meet sector needs. The following principles underpins this policy on evaluation processes:

- 6.1 Evaluation should be development-oriented and should address key development priorities of government and of citizens
- 6.2 Evaluation should be undertaken ethically and with integrity
- 6.3 Evaluation should be utilisation-oriented
- 6.4 Evaluation methods should be sound
- 6.5 Evaluation should advance government's transparency and accountability
- 6.6 Evaluation must be undertaken in a way which is inclusive and participatory
- 6.7 Evaluation must promote learning

## 7. Primary Intended Users

The primary intended users will mostly be managers of departments, who need to understand the way their interventions are working in practice and the outcomes and impacts these are having and why. These include:

- 7.1 Managers and staff at CATHSSETA who should be placing the need to incorporate rigorous evaluations at the heart of their work; and
- 7.2 CATHSSETA service providers and partners who conduct training within the CATHSSETA scope who need to develop a wider cadre of potential evaluators with the required skills and competences.

## 8. The Policy Objectives

**The objectives of this policy is to ensure that:**

- 8.1 All projects and learning programmes (PIVOTAL and non-PIVOTAL) are monitored and evaluated tactically.
- 8.2 Quarterly and Annual Programme Performance is compliant with policies, plans and procedures.
- 8.3 Implementation of the Strategic Plan and Annual Performance Plan, and supporting policies achieve the desired outcomes.
- 8.4 The organisational programmes address the national development plans, in particular, the Sector Skills Plan.

## **9. Monitoring Approach**

- 9.1 Learning programmes are monitored so as to ensure that they are on track – against key milestones and in terms of budget – and that where challenges emerge, these can be identified and addressed.
- 9.2 Monitoring will also identify any red flags, highlighting potential project risks that might emerge, that potentially might jeopardise the extent to which the project would meet its intended outcomes.
- 9.3 Monitoring data will be analysed to feed into a more in-depth evaluation process which will focus on understanding whether or not the anticipated outcomes and impact has been realised.

## **10. Evaluation Approach**

- 10.1 The evaluation process will support learning within the CATHSSETA scope in ways in which projects could be designed and refined to better meet these outcomes and support the intended impact as outlined in the strategic skills development goals for the sector as identified in the Sector Skills Plan.
- 10.2 It is further anticipated that this will allow CATHSSETA to consider which other projects need to be prioritised, if it is to meet its overarching strategic skills development goals for the sector as identified in the Sector Skills Plan and the Strategic Plan.

## **11. Roles, Responsibilities and Accountability**

The head Planning Department and relevant units will be responsible for implementation of the policy, supported by the CFO in the Finance Department for the disbursement of grants. The Accounting Officer assumes overall accountability.

## **12. Policy Guidelines**

This policy will be supported by guidelines included as Annexure A. The guidelines outline the specific objectives, processes, plans and templates.

## **13. Review of Policy**

This policy shall be reviewed on an annual basis to ensure that all procedures and processes are duly adopted.

## Annexure A

### Policy Guidelines

#### 14. Monitoring, Evaluation, Reporting and Learning

Monitoring and Evaluation are critical components of managing CATHSSETA's interventions and ensuring that projects are implemented according to plan and targets are being met.

#### 15. The uses of Monitoring and Evaluation

- To ensure that projects are implemented according to what was planned
- To ensure that set objectives are being met
- To provide data on project progress and effectiveness
- To improve project management, processes and decision-making
- To provide data to plan future project requirements
- To provide data for policy-making and funding allocation decision-making

##### 15.1 Monitoring

- A systematic collection and analysis of data to assist in timely decision-making, ensure accountability, and provide the basis for evaluation and learning.
- It is a continuous function that uses systematic data collection methods to provide management and stakeholders with information on an ongoing project, with early indications of progress, achievements and challenges in the project implementation.
- It measures ongoing activities, focusing on what is being done.

##### 15.2 Evaluation

- Evaluation measures performance against set objectives, focusing mainly on outcomes. It is normally done at the end of a project. However, in broad terms, evaluation is the formation of an opinion or conclusion regarding an observation.
- In the skills development context, it refers specifically to the formation of an opinion or conclusion regarding the interventions, processes or functions of the SETA as reflected in the data collected through the monitoring process.

##### 15.3 Impact Evaluation

- This type of evaluation assesses change in people's lives, positive or negative, intended or unintended. It mainly looks at the long-term outcomes and sustainability, enhancing changes in their lives.
- Impact Evaluations are conducted:
- To decide whether to fund an intervention
- To decide whether or not to continue or expand an intervention
- To learn how to replicate or scale up a pilot project

- To learn how to successfully adapt a successful intervention to suit another context.
- To reassure funders, including taxpayers (upward accountability), that money is being wisely invested.
- To inform intended beneficiaries and communities (downward accountability) about whether or not, and in what ways, a programme is benefiting the target group.

#### **15.4 Learning**

- Findings from process monitoring and evaluation are used for the continuous improvement of project implementation. Process evaluation findings, together with outcomes and impact evaluation results are used to identify gaps in programme planning, implementation and targeting of beneficiaries.
- The information gained is used for strategic planning to ensure that plausible strategies are generated to counter imperfections in previous projects and to ensure that new projects are aligned to the vision of the organisation.

### **16. Monitoring, Evaluation, Reporting and Learning (MERL)**

- MERL are continuous processes within CATHSSETA.
- These processes are crucial for the organisation in that they inform the inception of new projects, project implementation, beneficiary targeting and upscaling or downscaling of existing projects.
- Redundant ways of doing things are discarded in favour of new methods and the organisation is continuously evolving, learning from past experiences to fine-tune existing programmes.

### **17. Scope of Monitoring and Evaluation**

The scope of the M&E function ranges from research activity, planning, policy development to project implementation. Policies are statements of what CATHSSETA seeks to achieve through its work and why. Strategies are sequentially structured descriptions of how these policies will be enacted. Programmes are high-level, big-picture plans showing how strategies will be implemented. Projects are specific conceptually-linked sets of activities intended to achieve particular results that will lead to the achievement of programme goals.

## **1. INTRODUCTION**

This document purports to give a consolidated overview of the organisational Implementation Plan for the 2017/18 financial year. The Implementation Plan is developed by the CATHSSETA Management team, under the guidance of the Planning Division. The Implementation Plan is divided per programme and is specific to each respective department.

## **2. PURPOSE**

The purpose of the document is to provide a framework of processes to be followed in the execution of the strategic objectives of the business at strategic and operational levels.

## **3. BACKGROUND**

The organisational structure consists of five Senior Managers reporting directly to the Administrator as the Chief Executive Officer (CEO) of the organisation. Each Senior Manager is expected to develop an operational plan in line with the Annual Performance Plan in order to ensure seamless implementation of the strategy. The five Senior Managers are responsible for the three programmes in the APP 2017/18 listed below.

## **4. PROGRAMMES**

### **4.1 Programme 1: Administration**

The purpose of Programme 1 is to ensure delivery of the CATHSSETA mandate by providing leadership, sound financial management, organisational management and administrative support. This programme is comprised of the following sub-programmes: Communication and Stakeholder Management, Finance, Human Resources, and Information Technology. The Corporate Services Senior Manager is responsible for this programme. To ensure delivery of the CATHSSETA mandate, through the provision of corporate governance support services that ensure accountability. This programme is composed of the Office of the Chief Executive Officer and Board structures and services.

### **4.2 Programme 2: Planning**

The purpose of Programme 2 is to ensure provision of performance information services that assist management decision-making that will lead to the achievement of the CATHSSETA predetermined objectives. This programme is made up of the following functions, i.e. the Research, Strategy and Annual Performance Planning, Monitoring and Reporting and the Evaluation. The Senior Manager: Executive Support is responsible for this programme.

### **4.3 Programme 3: Learning Programmes**

The purpose of Programme 3 is to ensure facilitation of the delivery of the CATHSSETA core mandate of skills development in the CATHSSETA sector. This programme is made up of three sub-programmes i.e., Quality Assurance, Learning Programme interventions and Grants and Special Programmes. Two Senior Managers, Operations and Skills Development are responsible for this programme.

| New indicator             | Identifies whether the indicator is new, has significantly changed, or continues without change from the previous year  |
| Desired performance       | Identifies whether actual performance that is higher or lower than targeted performance is desirable  |
| Indicator responsibility  | Identifies who is responsible for managing and reporting the indicator  |

## Executive Summary

---

This document is intended to serve as an attachment to the submitted CATHSSETA Strategic Plan (SP) and Annual Performance Plan (APP).

The Technical Indicator Descriptors (TIDs) are one of the key requirements for the Strategic Plan and Annual Performance Plan as outlined in the National Treasury Framework for Strategic Plans and Annual Performance Plans. A TID is defined as the fundamental tool in assisting with the interpretation of Key Performance Indicators (KPIs) and aims to ensure that all stakeholders have a common understanding and expectation of every KPI in the Annual Performance Plan.

### Introduction

The Technical Indicator Descriptor document is an annexure to the Annual Performance Plan for the year 2017/18. The document outlines the background of the TIDs – which discusses the pre-audit; definition of a TID; and CATHSSETA programmes. It then concludes by discussing the TIDs' for each KPI within each programme.

### Definition of Technical Indicator Descriptor (TID)

The Technical Indicator Descriptors are one of the key requirements for the Strategic Plan and Annual Performance Plan as outlined in the National Treasury Framework for Strategic Plans and Annual Performance Plans. A TID is defined as the fundamental tool in assisting with the interpretation of KPIs. A technical indicator interprets the following dimensions of the KPI i.e. the title, link to the Strategic Plan and Annual Performance Plan, definition of the KPI components, link to jobs responsible for monitoring performance against the KPI, the collection of data, and taking of accountability for the KPI. It also ensures that all stakeholders have a common understanding and performance expectations associated with every KPI in the Annual Performance Plan.

### CATHSSETA Programmes

CATHSSETA has a total of three programmes, with relevant sub-programmes comprising a total of 47 KPIs. The programmes and sub-programmes are as follows:
